

A Legacy of Leadership

For over 50 years, Cadillac Fairview has been leading the way in commercial real estate with innovative design, development, and management.

Its success can certainly be stated in numbers – an expanding global portfolio of over 80 industry-leading commercial properties with a value estimated at over \$17 billion. A company's true value, however, must also take into account the impact and influence it has over the long term – how it shapes trends, influences standards and enhances the value of its portfolio. Cadillac Fairview's lasting success can be attributed to two fundamental factors: an unmatched commitment to the creation and management of exceptional properties, and the passion, dedication and talent of its people.

Responsible, client and community-focused management has always been the hallmark of Cadillac Fairview. Today, that tradition of leadership and activism continues undiminished through its widespread commitment to charitable and community causes and the award-winning environmental practices and policies in place throughout its portfolio of properties.

Wholly owned by the Ontario Teacher's Pension Plan, Cadillac Fairview is one of North America's largest investors, owners and managers of regional shopping centres and office properties.
